

UPS Global Value Chain

As a global leader in logistics, we provide a broad range of solutions that transport packages and freight, facilitate international trade, and deploy advanced technology to more efficiently manage the world of business. We input the assets and capital that comprise our global logistics network in order to output the deliveries and services enabled by that network. Our service offerings include Global Small Package, Insurance & Financing, Logistics & Distribution, and Freight Forwarding. We measure impact through the economic, social, and environmental difference made by our global logistics networks.
