

Driving Solutions for Sustainable Shipping

Customers often want to make their shipping more environmentally sustainable, but often are unsure which move to make. We offer a range of solutions that customers can choose to ensure a lower-carbon journey.

Start Here: Choose UPS

We deploy initiatives to lower the CO2e emissions of our global logistics network. By simply choosing UPS, packages travel a more sustainable journey.

Initiatives

- Alternative fuel & advanced technology fleet
- Global, integrated, and optimized logistics network
- Use of carbon-efficient transportation modes, such as rail, sea, and cargo bikes
- Route optimization to ensure more efficient delivery
- Green building certifications and renewable energy for facilities

Next Step: Choose Sustainable Solutions

We provide solutions that offset carbon emissions entirely or lower them through more efficient trips that optimize routes and/or increase package density.

Solutions

- Carbon impact analysis
- UPS carbon neutral shipping
- UPS My Choice® service for home
- UPS My Choice® service for business
- UPS Access Point® network
- UPS Smart Pickup® service¹
- UPS Synchronized Delivery™ service²

The Extra Mile: Choose to Collaborate

We work with customers to measure and manage the carbon emissions of their shipping and to design more sustainable packaging.

Initiatives

- Supply chain optimization analysis
- Eco Responsible packaging program
- Packsize on-demand packaging³
- UPS Co-Innovation workshops
